

LICENSE PLATE RECOGNITION

GENERAL INFORMATION

LocoMobi World's License Plate Recognition (LPR) solution is a combination of hardware and software products. LPR uses either an EyePark or EyeMobile camera with the online software Cloud Portal. LocoMobi's LPR solution can be used in a variety of environments including gated lots, tolling lanes, and mobile enforcement.

HIGHLIGHTS:

- EyePark and EyeMobile cameras have 99.999% read rate
- Easily integrated into any cloud based environment
- Data transmitted to the Cloud in real time, essential for tracking vehicle status
- Manage multiple parking lots, garages, and operations with one portal

BENEFITS:

- Enforce parking seamlessly without ever needing to leave a vehicle
- Forecast and benchmark vehicle statistics with user-friendly and easily accessible reports and updates- plan promotions for low traffic and extra staff for high traffic
- Rest secured and assured with heavily encrypted software and extensive permission levels
